

Planning and Quality Assurance Affairs

Form (A)

Course Specifications

General Information

Course name	Oral physiology
Course number	DENT2209
Faculty	
Department	
Course type	College Needs
Course level	2
Credit hours (theoretical)	1
Credit hours (practical)	1
Course Prerequisites	

Course Objectives

1 - understand the physiology of the oral cavity
2 - realize the process of mastication
3 - understand the speech process and the role of oral cavity
4 - improve the students ability to link information

Intended Learning Outcomes

Knowledge and Understanding	* understand the speech process and the role of oral cavity
	* understand the physiology of the oral cavity
Intellectual Skills	* realize the process of mastication
General Skill	* improve the students ability of linking information

Course Contents

1 - mouth and teeth physiology
2 - mastication
3 - neural regulation of salivary secretion
4 - defense mechanism of the mouth
5 - taste and smell
6 - speech
7 - regulation of the organic metabolism growth and energy balance
8 - pain

Teaching and Learning Methods

1 - powerpoint slides

Students Assessment

<u>Assessment Method</u>	<u>TIME</u>	<u>MARKS</u>
midterm exam	7th week	50
final exam	14th week	50

Books and References

Course note	oral physiology
