

Planning and Quality Assurance Affairs

Form (A)

Course Specifications

General Information

Course name	Oral Medicine I
Course number	DENT4231
Faculty	
Department	
Course type	College Needs
Course level	4
Credit hours (theoretical)	2
Credit hours (practical)	0
Course Prerequisites	

Course Objectives

1 - Enable students to know and diagnose oral diseases
2 - To know the relation of oral diseases and general diseases
3 - To be able to treat simple forms of oral diseases
4 - Motivate a good relation between dentist and other specialties and specialists

Intended Learning Outcomes

Knowledge and Understanding	* Diagnose oral disease
	* Recognize complications
	* Treat some forms
Intellectual Skills	* • Photos
	* • Comparative study

Course Contents

1 - Elementary lesions in oral mucosa
2 - White lesions I
3 - White lesions II
4 - Red lesions I
5 - Red lesions II
6 - Black and brown lesions
7 - Vesiculo-bullous lesions I
8 - Vesiculo-bullous lesions II
9 - Vesiculo-bullous lesions III
10 - Ulcerative lesions I
11 - Ulcerative lesions II
12 - Ulcerative lesions III
13 - Papillary lesions

Teaching and Learning Methods

- | |
|-----------------|
| 1 - Lectures |
| 2 - Power Point |
| 3 - Assignments |
| 4 - Discussion |

Students Assessment

<u>Assessment Method</u>	<u>TIME</u>	<u>MARKS</u>
Mid- term exam and assignments		40%
Final Exam		60%
