

Planning and Quality Assurance Affairs

Form (A)

Course Specifications

General Information

Course name	Fixed Prosthodontics V
Course number	DENT5148
Faculty	
Department	
Course type	Major Needs
Course level	5
Credit hours (theoretical)	1
Credit hours (practical)	0
Course Prerequisites	

Course Objectives

1 - The understanding of the Implant supported F. Prosth.
2 - The understanding of the failure of F. Prosth.
3 - The understanding of the removal of F. Prosth.
4 - The understanding of the Repair of F. Prosth.

Intended Learning Outcomes

Knowledge and Understanding	<ul style="list-style-type: none"> * The understanding of the Implant supported F. Prosth. * The understanding of the removal of F. Prosth. * The understanding of the failure of F. Prosth. * The understanding of the Repair of F. Prosth.
-----------------------------	--

Course Contents

1 - Esthetic bonding "Laminate Veneers"
2 - Implant supported fixed Protheses.
3 - Failure of fixed protheses.
4 - Repair of crown and bridge restoration.
5 - Removal of fixed protheses.
6 - Care and maintenance of crown and bridge following cementation.

Teaching and Learning Methods

1 - powerpoint slides
2 - educative videos

Students Assessment

<u>Assessment Method</u>	<u>TIME</u>	<u>MARKS</u>
mid- term exam	7th week	50
final exam	14th week	50

Books and References

Recommended books	Fixed Prosthodontics	H.W. AuselmWiskott	Quintessence
