

Planning and Quality Assurance Affairs

Form (A)

Course Specifications

General Information

Course name	Research
Course number	DENT5338
Faculty	
Department	
Course type	College Needs
Course level	5
Credit hours (theoretical)	3
Credit hours (practical)	0
Course Prerequisites	

Course Objectives

- 1 - Develop the capability to work independently with a problem-solving orientation. Analyze, design and implement a solution to a real-world problem. Demonstrate adequate knowledge to proceed with the studies at the graduate level. Apply relevant ethical concepts during the course of the project. Professional-quality written reports and presentations covering all aspects and phases

Course Contents

- 1 - This is a capstone project course that will allow students to (preferably) work on a real world problem. It is typically a team work with up to three (3) members. The aim is to help students to select related project topics and get the project completed efficiently, through guiding them in searching reliable literature, preparing and presenting results, and writing the reports.
