

Planning and Quality Assurance Affairs

Form (A)

Course Specifications

General Information

Course name	Research Project
Course number	GEOL4331
Faculty	
Department	
Course type	Major Needs
Course level	4
Credit hours (theoretical)	3
Credit hours (practical)	0
Course Prerequisites	

Course Objectives

1 - A practical and theoretical study of certain geological area
--

Intended Learning Outcomes

Knowledge and Understanding	* Able to write a research paper
	* Able to write a thesis

Course Contents

1 - A practical (lab) and theoretical study of certain geological data and information with the aim of devising a thorough specific topic

Teaching and Learning Methods

1 - Research work

Students Assessment

<u>Assessment Method</u>	<u>TIME</u>	<u>MARKS</u>
Writing a report	During the semester	40
Discussion	End of the semester	60
